

Scully Unifil® Product Return Cap

A durable cap for use on tank trucks with bottom loading capacity to seal two-inch product return lines while in transit.

Features & Benefits

- Quick and easy operation with the Unifil® connection that securely latches to the product return line.
- Heavy-duty aluminum cap with safety chain that prevents the cap from becoming a projectile during transport.
- Viton® O-ring seal provides reliable protection against leaks and spills from gasoline, diesel, and biofuels.
- Optional customer co-branding available on the face of the cap.
- Proudly made in the USA.

Specifications

- Weight: 4.8 oz (cap and chain)
- Chain pull: 100 lbs
- Material: Aluminum
- Seal: Viton® O-Rings
